

ICCG-7 Stuttgart, 1983

REPORT ON IOCG COUNCIL AND GENERAL ASSEMBLY MEETING HELD AT ICCG-7 IN STUTTGART SEPTEMBER 13 AND 14, 1983

The IOCG Council and General Assembly met during ICCG-7 in Stuttgart on September 13 and 14, 1983. The following decisions were approved:

1. The Constitution of IOCG is amended by adding the following new article to the Bylaws of the Constitution:

ARTICLE V

Regional/National Activities

Section 1 - Regional/national scientific meetings as mentioned in Article VII, section 5 of the Constitution, although open to IOCG members, are subject to the laws and regulations of the host country.

It is understood and approved that any other topical and/or international conference or symposium sponsored by IOCG is open to all bona fide scientists working in crystal growth.

2. The next ICCG-8 was approved to be held in York, UK, between July 14 and 19, 1986, under the Co-Chairmanship of F.W. Ainger, B. Cockayne and J. Garside.
3. The General Assembly has elected from its floor the following councillors: P. Bennema, H. Bethge, R. Kaischew, R. Lacmann, V.V. Osiko and H.J. Scheel. Six rather than five councillors were exceptionally elected due to a tie in the number of votes received by two candidates.
4. The Council has decided to request from its different members a list of open positions in crystal growth for one to two years in order to improve the international exchange for young scientists. These open positions should be sent to M. Schieber, Secretary of IOCG, who will distribute them to the Secretaries of National Organizations for publication in their bulletins and/or in the Journal of Crystal Growth.
5. The Council has recommended to the Organizers of ICCG-8 and to any future Organizers of ICCG to allow a rebate for members of the National Organizations adhering to IOCG.

The Council and General Assembly approved the following slate of Officers, Members of the Executive Committee and Councillors for 1983-86. The list of Councillors includes the six elected from the floor of the General Assembly:
